

Hello,

During the last General membership meeting held on December 9, 2020 the majority voted on proceeding with Electronic Voting. This is a great opportunity for our membership as it takes away a lot of challenges people are faced with in today's society.

We are very excited to proceed with e-voting for any upcoming elections. For the first election (and possibly all further elections) we will be sending you instructions via your mailing address. The mail will be coming from Union Strategies with their logo resembling this,

On the notice, you will be provided instructions on how to vote via secured website or touchtone phone. If you DO NOT wish to receive mail via Union Strategies please respond back to electioncommittee@unifor6008.com by February 17, 2021. Please be advised if you do choose to opt out, there will be no other ways for you to vote. Please do the voting on your own time (not during your work day) and on your own electronic device or touchtone phone.

In this pandemic, we are all faced with new ways to raise and care for children, see friends and family, face mental struggles and just function in this new 2021. We are trying to come up with new ways of running our election process to accommodate everyone to the best of our abilities.

Mandy O'Shea
Election Committee Chair
